Education

UNIVERSITY OF SAN CARLOS

BS in Information Technology GPA [1.36, eligible for Magna Cum Laude] July 2026
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Systems Analysis and Design, Database Systems, Cloud Infrastructure and Services

Cebu City, PH

BETHANY CHRISTIAN SCHOOL

High School Diploma, Grade 1 – Grade 12

Cebu City, PH

May 2023

Technical Skills & Projects

Languages: C#, JavaScript, Python, SQL (*familiar: Java, Go, C, PHP*)

Frontend: React.js, Vue.js, HTML, CSS

Backend & Tools: Node.js, Express.js, ASP.NET Core, EF Core, REST APIs, GraphQL, WebSockets, Docker, Git

Databases: PostgreSQL, MongoDB, MySQL, Microsoft SQL Server, Supabase

Cloud & AI: Azure App Service, Azure SQL Server, Azure OpenAI, Azure Key Vault, Vector Embeddings, RAG Pipelines

Network Management System

Dec 2025 – Apr 2026

Project Manager & Developer

- Led end-to-end development as Project Manager & Lead Developer, driving system architecture, team coordination, and deployment strategy
- Built a C#/.NET (WPF) client-server system managing 80+ PCs with real-time monitoring, PostgreSQL, EF Core, and MSI-based rollout

Collaborative Drawing Web App

May – Jun 2025

Frontend & Backend Developer

- Built a real-time collaborative whiteboard using Node.js, Express.js, React.js, and Socket.IO; integrated MongoDB for session persistence and Dockerized for deployment

Hotel Management System

Mar – May 2025

Project Lead

- Led design and delivery of a microservices-based hotel booking platform, overseeing architecture and task delegation
- Integrated Dockerized services using Go, Hasura, and PostgreSQL with RBAC and JWT authentication

Relevant Experience

SKANLOG (Skandinavisk Logistik)

Cebu City, PH

Software Development Intern

Aug 2025 – Jun 2026

- Developed and deployed 3 full-stack web applications using Vue.js, Node.js, and REST APIs, supporting internal operations and client-facing systems
- Built a Talent Acquisition Platform with JWT authentication, role-based access, and an AI-powered talent recommendation pipeline using Azure OpenAI – embedding-based skill matching with cosine similarity scoring in C# (.NET)
- Built a Room Reservation System with real-time booking and admin dashboard; deployed all applications to Azure App Service with Azure SQL and Key Vault integration

Leadership

USC CISCO Student Council – VP of Internal Relations

2025 – Present

- Coordinated communication between students, faculty, and council members while helping organize department events serving 500+ participants.
- Led planning and execution of a department-wide event for 500+ participants, managing logistics, team coordination, and program flow

Certifications

PhilNITS — Fundamentals of Information Technology (FE)

April 2026

National Programming Challenge, 3rd Place – Codechum

October 2025

Cyberops Associate – Cisco Networking Academy

July 2025

Python and AWS Elective Course – Zuitt

May 2025

Global Business Summer Camp, 3rd Place – Saigon Business School, Vietnam

Apr 2025

CCNav7: Switching, Routing, and Wireless Essentials – Cisco Networking Academy

Jan 2025

Asian Summer School Certificate of Participation – Asian Institute of Technology, Thailand

Sep 2024

Data Analyst Associate – DataCamp

May 2024
